

SAFVAN KHALIFA

khalifasafvan@yahoo.com | (+91) 8153837262

SKILLS

- ❖ **Frontend Development:** React.js, NextJS, UI/UX Best Practices and Responsive design
- ❖ **Backend Development:** Node.js, Express.js, REST API Development
- ❖ **Databases:** SQL (MySQL, PostgreSQL), NoSQL (MongoDB)
- ❖ **Database Management:** Schema Design, Optimization, Query Performance Tuning
- ❖ **Error Handling:** Bug Identification, Debugging, Code Rectification

EXPERIENCE

- ❖ **Web Developer | MarketingSolver.in, Navsari** (Aug '24 - Aug '25)

Built websites with custom features and backend systems, updated client websites with new functionality, made single-page applications for local clients, built responsive interfaces, set up and managed databases, added authentication, booking workflows, and payment systems, and handled development from start to finish. - React.js, Next.js, Node.js, Express.js, MongoDB

- ❖ **Software Developer | La Net Team, Surat** (Jul '22 - Jul '24)

Developed and tested features, integrated APIs and improved data handling, managed code with version control and peer reviews, followed agile workflows, ensured cross-browser and mobile compatibility, and maintained technical documentation for long-term use. - React.js, Next.js, Node.js, Express.js, MySQL

- ❖ **Software Developer Trainee | La Net Team, Surat** (Jan '22 - Jul '22)

Learned and applied HTML, CSS, JavaScript, and DOM manipulation, used Git for version control, developed backend features with Node.js, MongoDB, and Express.js, built and deployed a full-stack React.js application, and applied skills in a real-world project. - HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Git

KEY PROJECTS

- ❖ **Cloud-Hosted Multi-Modal AI Agents Platform**
Developed adaptive frontend components for a cloud-hosted AI platform, supporting multi-modal outputs like text, audio, images, video, and 3D models, ensuring responsive, high-performance, and user-friendly interfaces.
- ❖ **Transportation Management Platform**
Developed and optimized a mission-critical platform for scheduling, quoting, and dispatch. Improved backend performance and scalability, handling 500+ concurrent requests. Built dynamic React frontend and advanced route/pricing tools, enhancing workflow speed, accuracy, and customer acquisition.

EDUCATION

- ❖ **Computer Engineering | GDEC, Abrama** CGPA: 7.84 | (Jul '18 - Jul '22)
